

Newpark Resources Reports Third Quarter 2019 Results

October 30, 2019 8:15 PM EDT

Company announces international contract awards and Fluids acquisition

THE WOODLANDS, Texas, Oct. 30, 2019 /PRNewswire/ -- Newpark Resources, Inc. (NYSE: NR) ("Newpark" or the "Company") today announced results for its third quarter ended September 30, 2019. Total revenues for the third quarter of 2019 were \$202.8 million compared to \$216.4 million for the second quarter of 2019 and \$235.3 million for the third quarter of 2018. Net loss for the third quarter of 2019 was \$1.4 million, or (\$0.02) per share, compared to net income of \$4.3 million, or \$0.05 per diluted share, for the second quarter of 2019, and \$3.6 million, or \$0.04 per diluted share, for the third quarter of 2018.

As a result of a decline in anticipated earnings in the U.S. for the full year 2019, the third quarter 2019 provision for income taxes includes a \$2.0 million (\$0.02 per share) charge, primarily reflecting the impact of an increase in the projected full year 2019 tax rate.

Paul Howes, Newpark's President and Chief Executive Officer, stated, "Although volatility in the U.S. land market provided headwinds to our third quarter results for both segments, I'm very pleased to highlight that we are continuing to make meaningful progress in the penetration of targeted growth markets, which is critical to driving longer term growth and stability. Additionally, we continued to generate positive free cash flow in the third quarter, carefully balancing the execution of our strategic growth efforts, while taking appropriate actions to navigate the challenging market environment on U.S. land.

"During the third quarter, the Mats and Integrated Services segment revenues improved 14% sequentially, benefitting primarily from the anticipated rebound in mat sales and modest growth from energy infrastructure rental and service projects. The segment's operating margin was 20% for the third quarter, as the impact of the higher revenue level was offset by changes in revenue mix and the timing of certain expenses. We continue to see success in the U.S. energy infrastructure market, with an expanding schedule of mats rental projects in the utility transmission space.

"Our Fluids Systems business was successful in securing three international tender awards during the quarter, expanding our relationship with global operators," added Howes. "These include a new three-year contract for combined drilling and completion fluids with ENI to support their offshore drilling campaign in Cyprus and a two-year contract with PTT Exploration and Production in Algeria. Both of these contracts are expected to begin in the first half of 2020 and combined, generate additional revenues of \$15-\$20 million per year. In addition, we were awarded a new five-year contract with OMV Petrom, which extends our on-going work providing drilling and completion fluids to this customer in Romania.

"Third quarter Fluids Systems segment revenues declined 12% sequentially, primarily reflecting softness across most U.S. land markets. Meanwhile, although our schedule of projects in the Gulf of Mexico continues to grow, revenues from this market declined \$5 million sequentially, reflecting the impact from the timing of customer projects. Internationally, our Fluids Systems revenues decreased 8% sequentially, driven primarily by the Sonatrach contract transition in Algeria. With the rapid decline in revenues within certain U.S. regions in the quarter, the Fluids Systems operating margin pulled back to 4% for the third quarter, compared to 7% in the second quarter.

"Subsequent to the end of the third quarter, we completed the acquisition of Cleansorb Limited, a leading global provider of specialty reservoir chemistry based in the United Kingdom, for cash consideration of \$19 million," said Howes. "Established in 1994, Cleansorb has become a recognized leader in innovative and proven completion fluids technology, supporting several of Newpark's international contracts, and also currently supplying key products into Saudi Arabia. This acquisition serves as another meaningful step in building out our fluids technology portfolio.

"Looking forward, we will continue to prudently balance the implementation of our strategic growth objectives in both segments while focusing on the goals of generating positive free cash flow and strengthening our balance sheet during these volatile market cycles," concluded Howes.

Segment Results

The Mats and Integrated Services segment generated revenues of \$50.2 million for the third quarter of 2019 compared to \$43.9 million for the second quarter of 2019 and \$54.4 million for the third quarter of 2018. Segment operating income was \$10.0 million for the third quarter of 2019 compared to \$9.3 million for the second quarter of 2019 and \$12.9 million for the third quarter of 2018.

The Fluids Systems segment generated revenues of \$152.5 million for the third quarter of 2019 compared to \$172.5 million for the second quarter of 2019 and \$181.0 million for the third quarter of 2018. Segment operating income was \$5.9 million for the third quarter of 2019 compared to \$12.2 million for the second guarter of 2019 and \$8.3 million for the third quarter of 2018.

Conference Call

Newpark has scheduled a conference call to discuss third quarter 2019 results and its near-term operational outlook, which will be broadcast live over the Internet, on Thursday, October 31, 2019 at 10:00 a.m. Eastern Time / 9:00 a.m. Central Time. To participate in the call, dial 412-902-0030 and ask for the Newpark Resources call at least 10 minutes prior to the start time, or access it live over the Internet at www.newpark.com. For those who cannot listen to the live call, a replay will be available through November 14, 2019 and may be accessed by dialing 201-612-7415 and using pass code 13695526#. Also, an archive of the webcast will be available shortly after the call at www.newpark.com for 90 days.

Newpark Resources, Inc. is a worldwide provider of value-added fluids and chemistry solutions in the oilfield, and engineered worksite and access solutions used in various commercial markets. For more information, visit our website at www.newpark.com.

This news release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. All statements other than statements of historical facts are forward-looking statements. Words such as "will," "may," "could," "would," "should," "anticipates," "believes," "estimates," "expects," "plans," "intends," and similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying them. These statements are not guarantees that our expectations will prove to be correct and involve a number of risks, uncertainties, and assumptions. Many factors, including those discussed more fully elsewhere in this release and in documents filed with the Securities and Exchange Commission by Newpark, particularly its Annual Report on Form 10-K for the year ended December 31, 2018, as well as others, could cause actual plans or results to differ materially from those expressed in, or implied by, these statements. These risk factors

include, but are not limited to, risks related to the worldwide oil and natural gas industry; our customer concentration and reliance on the U.S. exploration and production market; our international operations; our ability to attract, retain and develop qualified leaders, key employees and skilled personnel; the availability of raw materials; our cost and continued availability of borrowed funds, including noncompliance with debt covenants; operating hazards present in the oil and natural gas industry and substantial liability claims, including catastrophic well incidents; our ability to execute our business strategy and make successful business acquisitions and capital investments; our market competition; our contracts that can be terminated or downsized by our customers without penalty; our product offering expansion; our compliance with legal and regulatory matters, including environmental regulations; our legal compliance; material weaknesses in our internal control over financial reporting; the inherent limitations of insurance coverage; income taxes; the potential impairments of goodwill and long-lived intangible assets; technological developments in our industry; severe weather and seasonality; cybersecurity breaches or business system disruptions; and fluctuations in the market value of our publicly traded securities. We assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by securities laws. Newpark Resources, Inc. Non-GAAP Reconciliations (Unaudited)

To help understand the Company's financial performance, the Company has supplemented its financial results that it provides in accordance with generally accepted accounting principles ("GAAP") with non-GAAP financial measures. Such financial measures include earnings before interest, taxes, depreciation and amortization ("EBITDA"), EBITDA Margin, Free Cash Flow, Net Debt, and the Ratio of Net Debt to Capital.

We believe these non-GAAP financial measures are frequently used by investors, securities analysts and other parties in the evaluation of our performance and liquidity with that of other companies in our industry. Management uses these measures to evaluate our operating performance, liquidity and capital structure. In addition, our incentive compensation plan measures performance based on our consolidated EBITDA, along with other factors. The methods we use to produce these non-GAAP financial measures may differ from methods used by other companies. These measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP.

EBITDA and EBITDA Margin

The following tables reconcile the Company's net income (loss) or segment operating income calculated in accordance with GAAP to the non-GAAP financial measure of EBITDA:
