

Newpark Resources Reports Second Quarter 2020 Results

August 3, 2020 8:15 PM EDT

Company Generates \$21 million Cash from Operating Activities; Reduces Debt by \$27 million

THE WOODLANDS, Texas, Aug. 3, 2020 /PRNewswire/ -- Newpark Resources, Inc. (NYSE: NR) ("Newpark" or the "Company") today announced results for its second quarter ended June 30, 2020. Total revenues for the second quarter of 2020 were \$101.9 million compared to \$164.6 million for the first quarter of 2020 and \$216.4 million for the second quarter of 2019. Net loss for the second quarter of 2020 was \$26.2 million, or (\$0.29) per share, compared to net loss of \$12.1 million, or (\$0.14) per share, for the first quarter of 2020, and net income of \$4.3 million, or \$0.05 per diluted share, for the second quarter of 2019. Second quarter 2020 results include the impact of the following:

- \$8.3 million of pre-tax charges for write-downs of inventory in the Fluids Systems segment (\$6.5 million after-tax);
- \$2.8 million of pre-tax charges for severance costs (\$2.2 million after-tax), including \$2.6 million in the Fluids Systems segment and \$0.2 million in the Corporate office;
- \$0.8 million of pre-tax charges for facility closures and related exit costs in the Fluids Systems segment (\$0.6 million after-tax); and
- \$1.3 million pre-tax (\$1.1 million after-tax) gain associated with the repurchase of \$18.6 million of our convertible notes in the open market.

Combined, the impact of the above items resulted in a \$11.9 million increase in operating loss and an \$8.2 million increase in net loss (\$0.09 per share) for the second quarter of 2020.

Paul Howes, Newpark's President and Chief Executive Officer, stated, "The COVID-related shutdowns combined with the unprecedented market collapse over the past four months is unlike anything we've experienced before. In light of these market challenges and difficult working conditions, our highest priority has remained the health and safety of our global workforce. I am extremely proud of the performance of our entire organization in recent months, as we've swiftly executed actions from our strategic playbook aimed at rightsizing our organization in markets where longer-term softness is expected, aggressively managing our working capital to drive positive free cash flow generation, while continuing to safely support our customers. The impact of COVID is proving to be longer in duration and deeper than we originally anticipated, most notably within the EMEA region of Fluids Systems, where government-imposed restrictions on movements of personnel and products, along with ongoing uncertainty regarding the timing of COVID recovery are causing activity disruptions and project delays. Mats & Integrated Services has also experienced an elevated impact from COVID in the second quarter, with our Energy Infrastructure customers seeing delays in the issuance of governmental permits as well as supply chain and logistical restrictions, resulting in delays to planned projects.

"We moved quickly to adjust our cost structure beginning in the first quarter, reducing our global workforce by 25% in the first half of the year, including a 50% reduction in the US land Fluids business. We've also continued our aggressive management of liquidity, eliminating all non-critical capital investments and driving reductions in working capital balances. Benefitting from these actions, we generated \$21 million of free cash flow and reduced our total debt balance by \$27 million in the second quarter," added Howes.

"The Fluids Systems segment posted second quarter 2020 revenues of \$75 million, reflecting a 44% sequential decline. With the combined impact of the oil and gas market collapse as well as COVID-related restrictions, revenues declined sharply in most major regions, with the exception of the Middle East, where revenues improved 9% sequentially. North America Fluids Systems revenues declined by \$41 million sequentially, which included a \$30 million reduction in US land markets and a \$10 million decline in Canada. Outside of North America, revenues pulled back by \$17 million sequentially to \$29 million in the second quarter, reflecting a larger-than-anticipated impact from COVID restrictions combined with lower commodity prices. The impacts were felt to some extent across most of our international units, with Italy and North Africa contributing the majority of the decline. For the second quarter of 2020, 62% of Fluids Systems revenues were derived from international and offshore Gulf of Mexico markets.

Howes continued, "In the Mats and Integrated Services business, the increasing COVID disruptions led to a \$6 million sequential decline in rental and service revenues in the second quarter. Product sales increased modestly on a sequential basis to \$5 million in the second quarter, although order activity continues to be negatively impacted by customer uncertainty. For the second quarter of 2020, approximately 70% of the Mats and Integrated Services revenue was derived from Energy Infrastructure and other non-E&P end-markets.

"Despite the extremely challenging market conditions, we remain committed to driving positive free cash flow generation and reducing our debt, while taking the actions necessary to position the company to emerge as a leaner organization, less dependent upon the volatile US land E&P market," concluded Howes.

Segment Results

The Fluids Systems segment generated revenues of \$74.7 million for the second quarter of 2020 compared to \$132.8 million for the first quarter of 2020 and \$172.5 million for the second quarter of 2019. Segment operating loss was \$25.1 million for the second quarter of 2020 compared to an operating loss of \$2.3 million for the first quarter of 2020 and operating income of \$12.2 million for the second quarter of 2019. Operating loss for the second quarter of 2020 includes a total of \$11.7 million of charges associated with inventory write-downs, severance costs, and facility exit costs. Operating loss for the first quarter of 2020 includes a total of \$1.2 million of charges associated with inventory write-downs and severance costs.

The Mats and Integrated Services segment generated revenues of \$27.3 million for the second quarter of 2020 compared to \$31.7 million for the first quarter of 2020 and \$43.9 million for the second quarter of 2019. Segment operating income was \$1.0 million for the second quarter of 2020 compared

to \$3.1 million for the first quarter of 2020 and \$9.3 million for the second quarter of 2019.

Repurchase of Convertible Notes due December 2021

During the second quarter of 2020, we repurchased \$18.6 million of our Convertible Notes due December 2021 in the open market for a total cost of \$15.3 million and recognized a \$1.3 million gain on the extinguishment of debt. For the first half of 2020, we repurchased a total of \$33.1 million of our Convertible Notes in the open market for a total cost of \$29.1 million and recognized a \$0.4 million gain on the extinguishment of debt. After giving effect to these repurchases, we had \$66.9 million of Convertible Notes outstanding as of June 30, 2020.

Conference Call

Newpark has scheduled a conference call to discuss second quarter of 2020 results and its near-term operational outlook, which will be broadcast live over the Internet, on Tuesday, August 4, 2020 at 10:00 a.m. Eastern Time / 9:00 a.m. Central Time. To participate in the call, dial 412-902-0030 and ask for the Newpark Resources call at least 10 minutes prior to the start time, or access it live over the Internet at www.newpark.com. For those who cannot listen to the live call, a replay will be available through August 18, 2020 and may be accessed by dialing 201-612-7415 and using pass code 13706909#. Also, an archive of the webcast will be available shortly after the call at www.newpark.com for 90 days.

Newpark Resources, Inc. is a worldwide provider of value-added fluids and chemistry solutions in the oilfield, and engineered worksite and access solutions used in various commercial markets. For more information, visit our website at www.newpark.com.

This news release contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, as amended. All statements other than statements of historical facts are forward-looking statements. Words such as "will," "may," "could," "would," "should," "anticipates," "believes," "estimates," "expects," "plans," "intends," and similar expressions are intended to identify these forward-looking statements but are not the exclusive means of identifying them. These statements are not guarantees that our expectations will prove to be correct and involve a number of risks, uncertainties, and assumptions. Many factors, including those discussed more fully elsewhere in this release and in documents filed with the Securities and Exchange Commission by Newpark, particularly its Annual Report on Form 10-K for the year ended December 31, 2019, and its Quarterly Report on Form 10-Q filed May 6, 2020 as well as others, could cause actual plans or results to differ materially from those expressed in, or implied by, these statements. These risk factors include, but are not limited to, risks related to the COVID-19 pandemic; the worldwide oil and natural gas industry; our customer concentration and reliance on the U.S. exploration and production market; our international operations; our ability to attract, retain and develop qualified leaders, key employees and skilled personnel; the availability of raw materials; our cost and continued availability of borrowed funds, including noncompliance with debt covenants; operating hazards present in the oil and natural gas industry and substantial liability claims, including catastrophic well incidents; our ability to execute our business strategy and make successful business acquisitions and capital investments; our market competition; our contracts that can be terminated or downsized by our customers without penalty; our product offering expansion; our compliance with environmental laws and regulations; our legal compliance; the inherent limitations of insurance coverage; income taxes; the potential impairments of goodwill and long-lived intangible assets; technological developments and intellectual property in our industry; severe weather, natural disasters, and seasonality; cybersecurity breaches or business system disruptions; and fluctuations in the market value of our publicly traded securities, including our ability to maintain compliance with the New York Stock Exchange's continued listing requirements. We assume no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by securities laws. Newpark's filings with the Securities and Exchange Commission can be obtained at no charge at www.sec.gov, as well as through our website at www.newpark.com.

Newpark Resources, Inc.
Non-GAAP Reconciliations
(Unaudited)

To help understand the Company's financial performance, the Company has supplemented its financial results that it provides in accordance with generally accepted accounting principles ("GAAP") with non-GAAP financial measures. Such financial measures include earnings before interest, taxes, depreciation and amortization ("EBITDA"), EBITDA Margin, Free Cash Flow, Net Debt, and the Ratio of Net Debt to Capital.

We believe these non-GAAP financial measures are frequently used by investors, securities analysts and other parties in the evaluation of our performance and liquidity with that of other companies in our industry. Management uses these measures to evaluate our operating performance, liquidity and capital structure. In addition, our incentive compensation plan measures performance based on our consolidated EBITDA, along with other factors. The methods we use to produce these non-GAAP financial measures may differ from methods used by other companies. These measures should be considered in addition to, not as a substitute for, financial measures prepared in accordance with GAAP.

EBITDA and EBITDA Margin

The following tables reconcile the Company's net income (loss) or segment operating income (loss) calculated in accordance with GAAP to the non-GAAP financial measure of EBITDA:
